“Looking ahead, we, as a leading integrated solution provider in the rapidly growing non-medical health and wellness market in China, will continue to strengthen our service offerings and enhance operational efficiency to achieve our long-term growth potential. As our platform grows in scale and these investments mature, we expect to continue growing at a more rapid pace than the industry average.”

Use of Non-GAAP Financial Measures

The Company uses non-GAAP financial measures in evaluating its business. For example, the Company uses non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited and non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited per ADS, as supplemental measures to review and assess its financial and operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation, or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. Non-GAAP income/(loss) from operations is income/(loss) from operations excluding the impact of share-based compensation expenses. Non-GAAP operating margin is non-GAAP income from operations as a percentage of total net revenues. Non-GAAP net income/(loss) is net income/(loss) excluding the impact of share-based compensation expenses. Non-GAAP net margin is non-GAAP net income as a percentage of total net revenues. Non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited is net income (loss) attributable to ordinary shareholders of ECMOHO Limited excluding the impact of share-based compensation expenses. Non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited per ADS is non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited divided by weighted average number of shares used in calculating net income (loss) per ordinary share multiplied by four.

The Company presents the non-GAAP financial measures because they are used by the Company's management to evaluate the Company's financial and operating performance and formulate business plans. Non-GAAP income/(loss) from operations and non-GAAP net income/(loss) enable the Company's management to assess the Company's financial and operating results without considering the impact of share-based compensation expenses. The Company also believes that the use of the non-GAAP measures facilitates investors' assessment of the Company's financial and operating performance.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP income/(loss) from operations, non-GAAP net income/(loss), non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited, and non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited per ADS is that they do not reflect all items of income and expense that affect the Company's operations. Share-based compensation expenses have been and may continue to be incurred in the Company's business and is not reflected in the presentation of non-GAAP income/(loss) from operations and non-GAAP net income/(loss). Further, the non-GAAP measures may differ from the non-GAAP measures used by other companies, including peer companies, and therefore their comparability may be limited. In light of the foregoing limitations, the non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited and non-GAAP net income (loss) attributable to ordinary shareholders of ECMOHO Limited per ADS for the period should not be considered in isolation from or as an alternative to income/(loss) from operations, operating margin, net income/(loss), net margin, net income (loss) attributable to ordinary shareholders of ECMOHO Limited and net income (loss) attributable to ordinary shareholders of ECMOHO Limited per ADS, or other financial measures prepared in accordance with U.S. GAAP.

The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measures, which should be considered when evaluating the Company's performance. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the section of the accompanying tables titled, "Reconciliations of GAAP and Non-GAAP Results."
